

Precision Low-Power Mag-meter!

The Smallest, Highest Precision, and Cost-Effective Mag-meters on the Planet!

Ultra-Low Power: Battery Operation Possible

Ultra-High Resolution

Fluid Conductivity: Minimum 20uS/cm

Standard Features

- 1% Accuracy using a Plastic Enclosure
- 4mm ID shown; ¼ to 2-inch available
- Temp rating: 70C (158F)
- Pressure rating: 80 PSI
- 24VDC Input Standard
- Automatic 50/60 Hz Noise Cancelation
- Pulse/PWM Output
- Empty Pipe Output
- 4-20mA, RS485, TTL RS232, and Modbus
- Quick Connect Push Fittings Std.
- Tri-clamp and others-consult factory
- IP67

Available Features

- 0.5% Accuracy w/ Metal Housing
- Bluetooth
- Batch Start/Stop
- DeviceNET and PROFIBUS
